International Educator Certification

A Question & Answer Guide

A Message from AmericEd

Established and administered by AmericEd, our International Educator Certification (IEC) is a voluntary teacher certification program designed to develop and improve teacher effectiveness. The process is simple yet comprehensive and can be completed entirely online in a very reasonable amount of time.

We invite you to become an IEC certified teacher who can help students develop the skills necessary to thrive in school. We hope you take this step and help us achieve our goal of putting the best teachers in our children's classrooms.

AmericEd's International Educator Certification (IEC) means:

- ✓ **Stronger instruction.** Certified teachers learn and practice various methods of teaching and assessing students that make the teachers more confident in the classroom.
- ✓ **Higher grades.** Certified teachers are more effective teachers who can influence better student performance.
- ✓ **Career advancement.** Certified teachers have better chances of job advancement and pay increases.
- ✓ **Skills for the future.** Certified teachers learn about developments in technology, especially in artificial intelligence, that are changing the way we teach and learn.

Q: What is International Educator Certification?

A: International Educator Certification is an advanced teaching credential. Certification is achieved upon successful completion of three steps:

1. Attending AmericEd's IEC course
2. Submitting the required documents
3. Passing the IEC exam

Q: What are the required documents?

A: Any teacher applying for the IEC certificate program must submit a:

1. Copy of *Bachelor's Degree* document
2. Completed *Application Form*
3. Completed *Verification of Good Conduct Form*
4. Completed *Verification of Teaching Hours Form*
This form is NOT required for new teachers who have no teaching experience.

Q: How does AmericEd support teachers after certification?

A: Certified teachers are invited to workshops offered by AmericEd throughout the year. Also, all certified teachers automatically become members of AmericEd's online community, a community that connects educators who want to share classroom experiences and discuss better methods of teaching. Furthermore, certified teachers will be given the opportunity to teach parts of the IEC course. Finally, certified teachers may opt to be contacted by schools seeking IEC certified teachers.

Q: Why certify?

A: Our children deserve to have the best teachers in their classrooms. Because teachers not only teach subjects but also influence character, we believe that all teachers should be held to very high standards. The International Educator Certification (IEC) is based on five core foundations.

Five Core Foundations

- ✓ Teachers teach and treat all children as if they are their own.
- ✓ Teachers demonstrate mastery of methods of teaching and of the subjects they teach.
- ✓ Teachers are held responsible for their students' learning and well-being.
- ✓ Teachers constantly work on improving their instruction and on gaining knowledge.
- ✓ Teachers cooperate with parents and administrators for the success of their students.

Q: What are the offered certificates?

A: We offer the following certificates:

1. The IEC: International Educator Certificate (**Digital Certificate ONLY**)

This is the main teacher certificate offered by AmericEd. It is designed to cover the fundamentals of teaching. This certificate covers the areas of classroom management, pedagogy, instructional methods, technology in education, parental support, and effective assessment. In this version of the certificate, teachers who successfully complete the program are awarded an official verifiable Digital Certificate that can be printed, shared with employers, and added to the teacher's LinkedIn profile. This version is less expensive than the version below and does NOT include an attested printed certificate.

2. The IEC: International Educator Certificate (**US Dept. of State Attested Printed Certificate + Digital Certificate**)

This version of the IEC certificate is identical to the version above; however, in addition to obtaining an official digital certificate, the teacher will receive a printed certificate that is notarized and attested by the United States Department of State in Washington, DC.

3. Individual Master Classes (**Digital Certificate ONLY**)

Teachers can register for individual master classes that cover topics included in our IEC program. Each master class can be paid for and attended separately. The teacher will receive a digital certificate of attendance. Please note that certificates of attendance will not be issued for teachers who attend any of our free master classes. However, those teachers will have the option to pay for the master class after attending the free class if they wish to obtain a certificate of attendance.

Q: How much does it cost?

A: The cost for each certificate type is below:

1. The IEC: International Educator Certificate (**Digital Certificate ONLY**) \$400

2. The IEC: International Educator Certificate (**US Dept. of State Attested Printed Certificate + Digital Certificate**) \$700

3. Individual Master Classes (**Digital Certificate ONLY**) \$20

Q: Do you offer discounts to schools or groups of teachers?

A: Yes. We offer group discounts that are based on the number of teachers registering for our courses. Please contact us by email to inquire about group discounts.

Q: Can the entire process be completed online?

A: Yes. The entire process, including the IEC exam, can be completed entirely online. To start now please visit our website, www.AmericEd.org/start

Q: Can candidates take the Praxis exam instead of the IEC exam?

A: Yes. We accept the Praxis PLT exam with a minimum passing score of 157.

Q: How long does the entire process take?

A: The entire process can be completed in as little as 4 weeks and up to one year.

Course Topics & Master Classes

We currently offer twenty one different topics that we draw from in our IEC certification program and in our master classes. We improve our current topics and add more topics regularly.

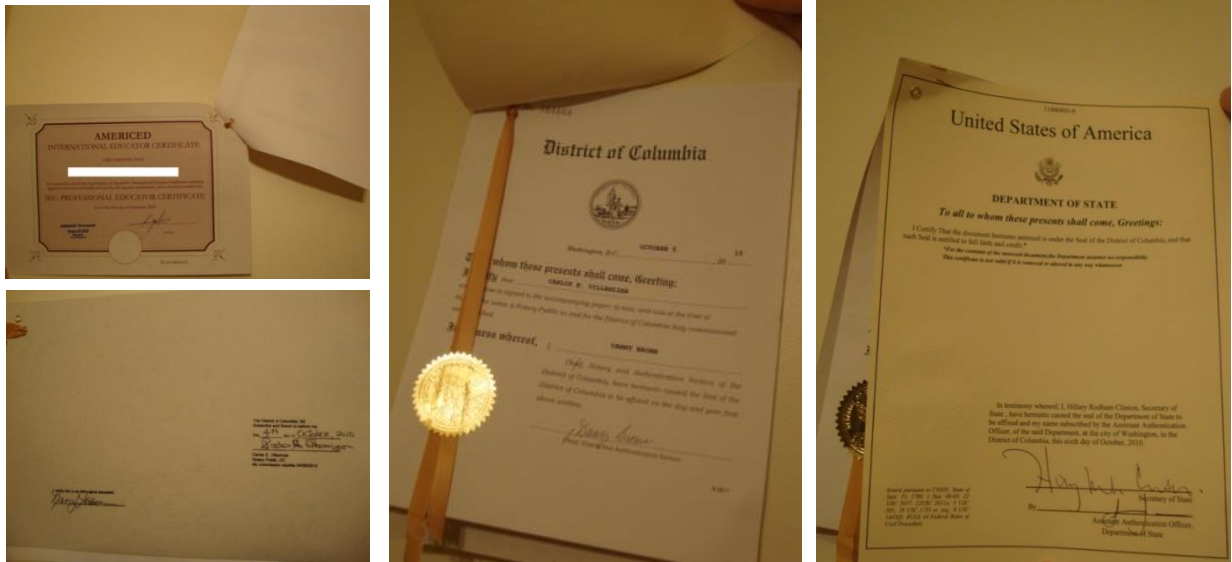

Titles of Workshops:

1. Introduction to Teaching
2. Your Mission Statement
3. Becoming A Super Teacher *module 1*
4. Becoming A Super Teacher *module 2*
5. Becoming A Super Teacher *module 3*
6. Classroom Management for Elementary School Teachers
7. Classroom Management for Middle School Teachers
8. Classroom Management for High School Teachers
9. Discipline in The Classroom *module 1*
10. Discipline in The Classroom *module 2*
11. The Organized Teacher
12. Pedagogy and Instructional Design *module 1*
13. Pedagogy and Instructional Design *module 2*
14. Technology in The Classroom *module 1*
15. Technology in The Classroom *module 2*
16. Technology in The Classroom *module 3*
17. How The Brain Learns
18. Motivation for The Burnt-Out Classroom
19. Assessment and Statistics
20. Working with Parents
21. Artificial Intelligence Is Changing How We Learn and Teach

Samples of Our Certificates

1. Sample of Attested IEC Certificate

NOTE: This sample is from 2010. Current certificates may vary slightly.

2. Sample of Verifiable Digital Master Class Certificate
